

DIPLOMA

IF-024453

Artur Panchenko

has taken course from 12.12.2022 till 15.09.2025

"Networks and Cybersecurity"

DIRECTOR OF THE ACADEMY ITSTEP

Ivano-Frankivsk 2025

Diploma supplement IF-024453

Artur Panchenko

has taken course from 12.12.2022 y. till 15.09.2025 y.

“Networks and Cybersecurity”

during the course has passed exams and tests in the following subjects

Enhanced IT Essentials	11 (excellent)
Fundamentals of C++ Programming	12 (excellent)
LAN Switching, Basic	11 (excellent)
Windows 10 Configuration	11 (excellent)
Structured Cabling Systems	10 (excellent)
IP Routing, Basic	10 (excellent)
IP Routing, Advanced	10 (excellent)
LAN Switching, Advanced	11 (excellent)
TCP/IP Application Protocols and Services	11 (excellent)
Networks and Systems Security	12 (excellent)
Windows Server 2016 Administration	12 (excellent)
Linux System Administration	12 (excellent)
Linux Network Administration	12 (excellent)
Introduction to Programming Using Python	12 (excellent)
Introduction to Database Management Systems	12 (excellent)
DevOps Toolkit	12 (excellent)
Virtualization and Cloud Computing	12 (excellent)
Diploma work	12 (excellent)

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the CCNA: Enterprise Networking, Security, and Automation course.

The student was able to proficiently:

- *Configure single-area OSPFv2 in both point-to-point and multiaccess networks.*
- *Explain how to mitigate threats and enhance network security using access control lists and security best practices.*
- *Implement standard IPv4 ACLs to filter traffic and secure administrative access.*
- *Configure NAT services on the edge router to provide IPv4 address scalability.*
- *Explain techniques to provide address scalability and secure remote access for WANs.*
- *Explain how to manage, optimize, monitor, and troubleshoot scalable network architectures and protocols.*
- *Explain how networking devices implement QoS.*
- *Explain how technologies such as virtualization, software defined networking, and automation affect evolving networks.*

Lynn Bloomer

Lynn Bloomer
Director, Cisco Networking Academy

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the CCNA: Introduction to Networks course.

The student was able to proficiently:

- *Configure switches and end devices to provide access to local and remote network resources.*
- *Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.*
- *Configure routers to enable end-to-end connectivity between remote devices.*
- *Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices*
- *Explain how the upper layers of the OSI model support network applications.*
- *Configure a small network with security best practices.*
- *Troubleshoot connectivity in a small network.*

Lynn Bloomer

Lynn Bloomer
Director, Cisco Networking Academy

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the CCNA: Switching, Routing, and Wireless Essentials course.

The student was able to proficiently:

- *Configure VLANs and Inter-VLAN routing applying security best practices.*
- *Troubleshoot inter-VLAN routing on Layer 3 devices.*
- *Configure redundancy on a switched network using STP and EtherChannel.*
- *Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.*
- *Configure dynamic address allocation in IPv6 networks.*
- *Configure WLANs using a WLC and L2 security best practices.*
- *Configure switch security to mitigate LAN attacks.*
- *Configure IPv4 and IPv6 static routing on routers.*

Lynn Bloomer

Lynn Bloomer
Director, Cisco Networking Academy

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the DevNet Associate course.

The student was able to proficiently:

- *Use basic Python programming and Linux skills.*
- *Implement a development environment using DevNet resources.*
- *Use software development and design best practices.*
- *Create REST API requests over HTTPs to securely integrate services.*
- *Explain the processes and devices that support network connectivity.*
- *Use current technologies to deploy and secure applications and data in a cloud environment.*
- *Compare software testing and deployment methods in automation and simulation environments.*
- *Compare Cisco platforms used for collaboration, infrastructure management, and automation.*

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the Introduction to Cybersecurity course.

The student was able to proficiently:

- Explain the basics of being safe online, including what cybersecurity is and its potential impact.*
- Explain the most common cyber threats, attacks, and vulnerabilities.*
- Explain how to protect oneself while online.*
- Explain how organizations can protect their operations against these attacks.*
- Access a variety of information and resources to explore the different career options in cybersecurity.*

Statement of Achievement

Artur Panchenko

has successfully achieved student level credential for completing the Linux Essentials course, provided by Cisco Networking Academy in collaboration with NDG.

The graduate is able to proficiently:

- Understand the Linux operating. system.
- Demonstrate the ability to navigate a Linux system.
- Execute the power of the Linux command line.
- Possess knowledge of Linux security and file permission

Statement of Achievement

Artur Panchenko

has successfully achieved student level credential for completing the Linux Unhatched course, provided by Cisco Networking Academy in collaboration with NDG.

The graduate is able to proficiently:

- Understand the basics of using the Linux command line.*
- Navigate home and system directories and listing files in various locations.*
- Create, move and delete files and directories under the home directory.*
- Search and extract data from files in the home directory.*
- Turn repetitive commands into simple scripts.*
- Describe where various types of information are stored on a Linux system.*
- Query vital networking configuration.*
- Manage various types of users on a Linux system.*
- Understand and manipulate file permissions and ownership settings.*

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the Network Defense course.

The student was able to proficiently:

- *Use cybersecurity concepts to document a network security posture.*
- *Configure security measures on network devices and Linux and Windows endpoints.*
- *Implement phases of identity lifecycle management.*
- *Configure a simulated network firewall.*
- *Recommend cloud security measures given a scenario.*
- *Determine the appropriate data protection mechanism to ensure secure transport and storage of network data.*
- *Explain how the public key infrastructure (PKI) is used to enhance data security.*
- *Implement virtual computing environments.*

Certificate of Course Completion

Artur Panchenko

has successfully achieved student level credential for completing the Network Security course.

The student was able to proficiently:

- Describe the security threats facing modern network infrastructures.
- Secure Cisco Routers.
- Implement AAA on Cisco routers using a local router database and external server.
- Mitigate threats to Cisco routers and networks using ACLs.
- Implement secure network design, management, and reporting.
- Mitigate common Layer 2 attacks.
- Implement the Cisco IOS firewall feature set.
- Deploy the Cisco ASA for firewall and NAT/PAT services.
- Implement a site-to-site IPsec VPN. Explain encryption types, confidentiality, integrity and authentication.
- Implement Zone-Based Policy Firewall.

Statement of Achievement

Artur Panchenko

has successfully achieved student level credential for completing the Python Essentials 1 course, provided by Cisco Networking Academy in collaboration with OpenEDG Python Institute.

The graduate has studied:

- *Design, develop, debug, execute, and refactor simple computer programs written in Python 3.*
- *Think algorithmically to analyze problems and implement them as computer processes.*
- *Use the syntax, semantics, and the most important elements of the Python Standard Library to write Python scripts and resolve typical implementation challenges.*
- *Understand the role of a programmer in the software development process.*
- *Attempt the qualification PCEP – Certified Entry-Level Python Programmer from OpenEDG Python Institute and continue their professional development at an intermediate level with Python Essentials 2.*

Statement of Achievement

Artur Panchenko

has successfully achieved student level credential for completing the Python Essentials 2 course, provided by Cisco Networking Academy in collaboration with OpenEDG Python Institute.

The graduate has studied:

- Design, develop, debug, execute, and refactor multi-module computer programs written in Python 3.*
- Analyze and model real-life problems in OOP categories.*
- Use the potential of Python in everyday applications, including IoT and DIY activities.*
- Understand the role of a programmer in the software development process.*
- Attempt the qualification PCAP – Certified Associate in Python Programming from OpenEDG Python Institute and continue their professional development at an advanced level.*
